GoNetZero™

Your net zero journey is
our purpose

We are a global decarbonisation solution provider, offering comprehensive end-to-end solutions to help customers achieve their emissions reduction goals.

Innovation is at the core of what we do.

We develop decarbonisation strategies for our customers throughout the various stages of their net zero journeys.

✓ Customers can acquire Renewable Energy Certificates (RECs), carbon credits and leverage our proprietary technology platform for energy asset management.

Backed by SGX-listed Sembcorp Industries.

GoNetZero™ Connect

We help you to connect the dots in your net zero journey

Carbon credits
Offset hard-to-abate emissions and support decarbonisation beyond value chain mitigation

Renewable Energy Certificates (RECs)
Transition to renewables and reduce Scope 2 emissions

NetZero Platform
Find digital solutions to manage your environmental attributes and optimise your energy assets

Measure and report
Calculate and begin managing emissions to communicate with confidence

24/7 hourly matching
Get near real-time data to match renewable energy generation and consumption

Sell with us
Access a global network of buyers of environmental attributes on our platform

---

A data-driven approach addressing the needs of every level of your organisation

Benefits
- Integrated overview by monitoring and benchmarking performance of energy sites in real-time
- Reduce losses through condition monitoring and by identifying and anticipating asset failure

NetZeroOS is our proprietary smart energy asset management platform designed to empower renewable energy asset owners to manage, optimise and scale their assets

- Improve operation & maintenance through corrective action recommendation and ticket management
- Improve equipment health through analytics and long term trending

GoNetZero

Welcome back, Kari

How are you doing in your net zero journey?

GHG Emissions
1,521 tCO2e

Next Target
8,167 tCO2e

Gap to Target
5,075 tCO2e

My Dashboard
